

HIF, Porsche AG, and Shell Sign e-Fuels Supply Agreement for Haru Oni facility

HIF Chile delivers e-Gasoline to Hamburg, Germany, to be blended by Shell and then used in Porsche lighthouse events

Houston and Santiago de Chile, May 5th, 2025 - [HIF Global](#), the world leader in highly innovative fuels, through its subsidiary HIF Chile, signed an agreement with Porsche AG and Shell for the delivery of e-Fuels produced by HIF's Haru Oni e-Fuels facility in Punta Arenas, Chile.

HIF is delivering e-Gasoline produced at the HIF Haru Oni e-Fuels facility in Chile to Shell's Technology Centre in Hamburg, Germany. The e-Gasoline will be blended by Shell and then used by Porsche at different lighthouse events to showcase their compatibility with existing combustion engines.

Cesar Norton, President & CEO of HIF Global, said, "We have been operating the world's first e-Fuels facility in Chile for two years, helping demonstrate the success of e-Fuels in cars and ships. The collaborative effort of HIF, Porsche, and Shell will showcase the potential of e-Gasoline as part of our ongoing effort to provide advanced, sustainable fuels. At HIF, we are developing a portfolio of commercial scale facilities in Chile, Uruguay, Brazil, Australia, and the United States, working with our partners to deliver secure and clean solutions for growing worldwide energy demand."

The HIF Haru Oni e-Fuels facility produces e-Methanol and e-Gasoline with the strong winds of Patagonia and state-of-the-art technology. It is the first facility of its kind in the world, and it is important for the future scalability of technology and mass production of e-Fuels. HIF Haru Oni is certified under the International Sustainability and Carbon Plus Certification (ISCC Plus) and its e-Fuels undergo over 100 daily lab analyses.

About HIF Global

HIF Global is the world's leading e-Fuels company developing large infrastructure projects to recycle CO₂ and produce hydrogen-based fuels for existing cars, ships and planes. The name HIF represents the mission of the company: to provide Highly Innovative Fuels that advance global energy sustainability. HIF is producing e-Fuels today at its HIF Haru Oni e-Fuels facility in Chile and is developing commercial-scale e-Fuels facilities in United States, Uruguay, Chile, Brazil, and Australia. CAUTIONARY INFORMATION ABOUT FORWARD-LOOKING STATEMENTS: Information in this press release includes statements that are forward-looking statements within the meaning of the U.S. federal securities laws. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. Words such as "can," "expect," "potential," "will," and similar expressions are used to identify forward-looking statements and convey the uncertainty of future outcomes. Forward-looking statements in this press release relate to, among other things, the expectations of our plans, strategies, and objectives, including with respect to the timing and other aspects of the HIF e-Fuels facilities. Such statements are based on management's current expectations and assumptions and are subject to known and unknown risks and uncertainties that may cause actual results or events to differ materially from expectations expressed or implied in the forward-looking statements. Factors that could cause actual results or events to differ materially from those described in the forward-looking statements include (without limitation): our ability to timely obtain or maintain necessary permits to construct and develop HIF e-Fuels facilities; our ability to execute operational objectives on a timely and successful basis; legislative, policy, fiscal and regulatory developments; outcome of commercial negotiations; our ability to raise financing; consumer preferences or

demand; and various economic, business, and competitive factors affecting our business. All forward-looking statements contained in this document are expressly qualified in their entirety by the cautionary statements contained or referred to in this paragraph. HIF urges you to carefully review and consider the cautionary statements made in this press release and cautions you not to place undue reliance on forward-looking statements, which speak only as of the date of this document. HIF undertakes no obligation (and expressly disclaims any such obligation) to update any forward-looking statements, whether as a result of new information, future events or otherwise.
